And If I Were Anything
It Could Not Be Conceptualized
And If It Could Be Conceptualized
Then It Could Not Be Communicated

And what it’s not realistic because people are so set in their ways
Are you fucking kidding me no they are not

So yeah, I don’t fucking care I stand for loving love and freedom and justice WITHOUT HESITATION
And if that makes me unemployable guess what I DON’T CARE
If that means I’m homeless guess what I DON’T CARE
I DON’T SUFFER FOOLS WELL AND YOU ARE ALL FOOLS
Like Duh
You All See How Dumb Everyone Else Is
Spoiler Alert You Are Also That Dumb

Everyone just goes to colonize each other’s cultures. You Aggressively say no the Indians don’t know what Hinduism is. Hinduism means GO USA. Or Whatever. Or Russia is like the Mandinka don’t even understand the legacy of Mansa Musa here we go. And You do shit in the name of random shit like that just making complicated webs of meaning. This is basically confusing the tendency of society instead of straightforward polarization into more of a transversal transdomain web of conflicts and alliance. We are mortal enemies in one dimension and indispensable allies in another. Happens all the time

Has nothing to do with humanity or man or whatever. All That shit Is Stupid
Everything Is Beyond Words And All Categories Especially You Thats Why We Say You Do You
